Notes: The total residual waste collected by the Essex Waste partnership does not equal the sum of the residual waste collected by Essex County Council and the Waste Collection Authorities, because after collection a proportion of the residual waste has undergone further treatment at the Mechanical and Biological Treatment (MBT) facility. In 2015/16 the MBT facility extracted a further 9529.32 tonnes from the residual waste for recycling. This has been removed from the Partnership's residual waste total and added to the recycling totals.
